Profile

MERN Stack Developer with 2.6 years of experience building high-performance web applications. Proficient in HTML, CSS, JavaScript, and modern frameworks like Next.js, with a strong foundation in MongoDB, Express.js, and Node.js.

Dedicated to delivering clean, efficient code, creating responsive and accessible user interfaces, and solving challenges with innovative, user-centered solutions.

Education

BTECH SRM University, Computer Science and Engineering   June 2018 to May 2022

- GPA: 8.3/10.0

Experience

Laalabs Private Limited, UI developer   Sept 2023 - Present
                                                                                                1 year 3 months

- Implemented user-friendly interfaces for dining, catering, and halwa on the **Fanadaq platform**, enabling seamless table reservations and service scheduling.
- Optimized performance by integrating lazy loading, reducing initial load time by 15% and enhancing user engagement.
- Integrated advanced search filters, real-time availability, and promotional offers, enhancing user engagement and booking efficiency.
- Used Redux and Thunk in Fanadaq's hotel booking app to improve data flow. This ensured better state management and optimized the application's performance.
- Achieved a 20% increase in customer engagement and bookings, showcasing the effectiveness of the implemented enhancements.
- Developed a comprehensive platform for **39Properties** that facilitates buying and renting plots, streamlining the real estate transaction process for users.
- Integrated a robust search feature, allowing users to easily find plots in specific areas, enhancing the overall usability and efficiency of the application.
- Utilized Agile methodology and managed project tasks using Jira to streamline development processes, enhance team collaboration, and ensure timely delivery of features.
- Leveraged FileZilla for efficient deployment of web applications, ensuring seamless file transfers and version control while maintaining high standards of reliability and accuracy.

Freelancer, Web Developer   Dec 2022 to Aug 2023
                                                                                                9 months

- Developed REST APIs using Express and handled the UI for school management systems, enabling efficient data flow and user-friendly interfaces.
- Crafted and implemented responsive web pages for the Bali tourism info portal, emphasizing user-friendly layouts and smooth navigation.

Wipro, Full Stack developer trainee   Apr 2022 to Sep 2022
                                                                                                6 months

- Completed a 6-month full-stack development training, gaining comprehensive knowledge and applying them to real-world projects to enhance practical skills.

Project

Employee and Manager Portal   2023

- Developed an Employee and Manager Portal where employees can log in to view holidays, apply for leave, and check past leaves; managers can log in to manage employee and client information efficiently.

Technologies

Skills: HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React, Redux, Next.js, Express.js, MongoDB, MySQL, Jest

Softwares: Visual Studio, Microsoft SQL Server, MongoDB Compass, Apache NetBeans, Git, Jira, File Zilla
